Mastering Public Speaking (8th Edition)

Synopsis

Updated in its 8th edition, *Mastering Public Speaking* equips readers with a firm grounding in the "hows" and "whys" of public speaking by providing an ideal balance of theory and skills while placing important emphases on critiquing, ethics, and critical thinking. Written in a casual, lively style and clearly organized, the eighth edition of *Mastering Public Speaking* builds on its previous success. The first public speaking book to devote an entire chapter to ethics, the eighth edition continues its popular and distinctive emphasis on the ethical contract between speaker and listener.

Too expensive!

This book was way beyond what anyone could call good condition and was completely soaked with dog urine at some point. This book should never have been sold to anyone as it may be a health hazard.

I didn't want this book, but needed it for a required class (going back to school to finally get a degree.) As far as textbooks go, I can see this one as actually have some use beyond the end of the class, as my recent career change has made interfacing with clients and even making presentations important. Well laid-out and easy to use as a reference.

I ordered this book for school and it was cheaper here. The book is good, easy to read. It had a lot of good tips in there for public speaking. I recommend this book to high school and college students or anyone looking for great tips on public speaking.

It's a text book. For a public speaking class. There's some good tips in it, but I don't get super excited about textbooks on the daily any ways. I haven't found any real problems with it though so 5 stars.

I am a public speaker already. This book is so helpful that I've already begun to recommend it to other speakers. It is an excellent textbook, concise, right to the point and light weight enough to carry to class.

I got this on my kiddle because it was cheaper. I love how you can search words made it so much easier. Also no book to carry. Within seconds or purchase your able to view it.

I bought this book for my Public Speaking class in college. it is a great book and has a lot of useful information. if you need help speaking in public, or you are taking a speech class I would highly recommend this book.
