Customer Reviews

I purchased this book because I was looking for a job and this book had cover letter samples that I needed. The price of the book was reasonable and would recommend this book for other individuals searching for a job. Vendor delivered the product on time as expected.

Repurchased. It must be good because it disappeared.

old

Nothing new that I haven't seen before. No sure fire or new ideas that will catch the viewers

attention and get you noticed.

Has great examples, it's a lot of information to take in though. Overall a good read.

This book is very useful providing the reader with samples of well-written cover letters, that even in today's computer driven world can still make an impact.

Just amazing!

I really liked this book and the examples. There were real life scenarios and very well written examples of how to address them in your letters. The same goes for Resume Magic.
