Customer Reviews

This engaging book, written by a young man who I've known over 30 years, shows exactly what a person can do with a purpose, a dream, and the exceptional dedication to achieve. An excellent first person "unrefined" and honest description of a journey that enlightened me to all the challenges an individual must navigate in order to become a high level professional in the medical field. A quick read and highly recommended.

Well written, easy to grasp, helpful tips how to avoid certain pitfalls and take advantage of those who can help you.

Motivation, very inspiring for anyone who wants to become an CRNA. This will help you learn the struggle and excitement of becoming such an AMAZING advanced practice nurse thru the eyes of

Mr. Flowers eyes. Love it...Christine, David, Bella :)
