Product Dimensions: 6.9 x 0.8 x 8 inches

Shipping Weight: 1.5 pounds (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars 6 customer reviews

Best Sellers Rank: #481,666 in Books (See Top 100 in Books) #167 in Books > Arts & Photography > Photography & Video > Celebrities #550 in Books > Arts & Photography > Photography & Video > Portraits #3858 in Books > Biographies & Memoirs > Arts & Literature > Actors & Entertainers

Customer Reviews

Pierre-Henri Verlhac is the cocreator of the Life in Pictures series, and from the series, he edited Marilyn Monroe.

I'm a Philadelphian by birth and we all love Princess Grace. Good book. A classy woman. An American beauty.

This book is amazing. I love Grace Kelly and this book has so many wonderful photos I'd never seen before. The excerpts from her children are amazing as well. This is definitely a must have for any Grace Kelly fan!

The book arrived in time on time. My mother adores it

Beautiful Grace! Fun to see her photos over the years.

LOVE IT!

Ordinarily I would not be caught dead thumbing through a photo album. But while browsing at my local bookstore the other day a little book caught my eye. Much to my surprise I picked it up and quickly became mesmerized by the subject. That book was "Grace Kelly: A Life in Pictures". Indeed, I discovered that the actress turned princess was photogenic from a very early age and in virtually every situation imaginable. Whether building sand castles on the beach as a young child, appearing in a magazine ad for Old Gold cigarettes in the early 1950's or vying for Jimmy Stewart's attention in the Alfred Hitchcock classic "Rear Window" Grace Kelly had it all. She combined breathtaking beauty with a magnetic personality. She was a true American original. Now while I have enjoyed a number of her films over the years I knew precious little about her life. While a brief bio appears at the beginning of the book the life story of this remarkable woman is for the most part told in the impressive array of black and white and color photographs that appear here. There are neat photos from a number of her most popular films including "To Catch a Thief", "Rear Window", "The Country Girl" and "High Society" which was her final film before she became Princess of Monaco at the age of 26. There are also dozens of photos from virtually every phase of her personal life. I especially enjoyed one where Grace is surrounded by her three young children. Moms aren't supposed to look like that. And as you might expect there are quite a few photos (including wedding photos) featuring Grace with her loving husband Prince Rainier. My, what a handsome couple they made! Sadly, Princess Grace was killed in a tragic automobile accident in 1982. She was just 52 years old. Yes, for the record there is also a photo or two from her funeral. Save for the funeral photos I found "Grace Kelly: A Life in Pictures" to be an absolute delight. I just kept flipping pages and in about forty-five minutes I had gone through the entire book! Grace Kelly was aging gracefully and she never lost her considerable sex appeal. Having said that, I must agree with reviewers of previous editions of this book (it was originally released in 2007) who felt that the presentation was a bit haphazard and should have been done in a more thoughtful way. Grace Kelly deserves better. Still, if you are a collector of classic movie memorabilia you might consider adding "Grace Kelly: A Life in Pictures" to your stash of stuff. Regardless of the aforementioned flaws this is eye candy for the ages.
