Building Your Hollow Wood Surfboard

Synopsis

Building Your Hollow Wood Surfboard. A guide to building a hollow cedar surfboard using 1/4" cedar planking covering a thin plywood frame. You also get one free set off blueprints featuring our patented rail construction method, making the building process easier and allowing for a better finished product. Plans are available for instant download with proof of purchase (details inside) and free real time help from the author through email to help you through the build process, along with the Timeless Surf Forum's online community to share information and updates.

Book Information

Paperback: 40 pages

Publisher: lulu.com (November 8, 2011)

Language: English

ISBN-10: 1105020347

ISBN-13: 978-1105020346

Product Dimensions: 8.5 x 0.1 x 11 inches

Shipping Weight: 4.2 ounces (View shipping rates and policies)

Average Customer Review: 3.0 out of 5 stars 2 customer reviews

Best Sellers Rank: #1,031,304 in Books (See Top 100 in Books) #90 in Books > Crafts, Hobbies & Home > Crafts & Hobbies > Toys & Models > Wood Toys #244 in Books > Sports & Outdoors > Outdoor Recreation > Surfing #378 in Books > Crafts, Hobbies & Home > Crafts & Hobbies > Wood Crafts & Carving

Customer Reviews

Not much more than workshop guidelines a simple how-to stick it all together put in a pretty cover, not really a book at all., nothing on design, history, etc. There is nothing about how to build a fancy fin, as the title would suggest and only rudimentary hand-drawn diagrams. Quite frankly a bit of a waste of money, especially considering insurance and postage to South Africa.

I bought this book and built a surfboard for my wedding to use as a guestbook (everyone signed it). After I received the book I emailed the author to get my free surfboard plans and they were sent immediately. It was an easy build and I am building another surfboard using the plans.
