Customer Reviews

Very useful for beginners.

Perfect for what I needed

I'm teaching my daughter piano lessons and purchased this Dozen a Day, since I also used these when I was beginning piano. My daughter loves doing these and practices every chance she gets. She learns new notes, tries practicing until she can do it with her eyes closed, and has such fun. Love it that they haven't changed this technical exercises book all these years.

When a student says he loves to play these because they're fun, you've got a winner. No wonder this has been around so long!

Liked

Very good book for students to warm up daily. The exercises are progressively harder, but not too advanced to stress out the beginner student. It offers warm ups, theory,, and fun pages

my young piano students really enjoy this book. they are short and appeal to young attention spans who may get distracted easily. the exercises start easy and progress without any large jumps in skill that may discourage. the stick figures mimicking the notes are a fun way to talk about the sounds we make on the piano.

I am Piano Teacher with more than 50 years of experience. Such books HAVE TO HAVE very detailed methodological description to EACH exercise.
