Customer Reviews

A friend recommended these Brighter Cards. I ordered several different card sets (shapes, letters, numbers, words, etc) and have been working them with my 2 year old. He likes the cards and the colors/ pictures on them. He also enjoys putting each card back in the box after we're done with it. All in all I think these are a good learning tool. And I love the low price!!!! My only complaint is that

the cards are a bit on the thin side.....and when considering that toddlers will be handling them, they should be thicker to ensure durability and longevity.

Great flash cards, you can't beat the price on these. They are not super large (only a little bit larger than the size of a regular deck of cards) BUT for the price, they are amazing. My little one loves them and gets very vocal about them. "Shoes!" "Car!" "Cat!" etc. It's great for them to recognize and call out different animals and objects.

I got these flashcards to help my three-year-old granddaughter start learning her numbers. She enjoys counting the creatures that are on the reverse of the card from the number and then we do the flip to see what the number looks like. Hopefully by the time she starts preschool. Will have her well on her way to knowing her numbers.

I picked these up to help with homeschooling my autistic 4 year old. The graphics are clear, easy to see and keep him interested. I like how there are basically 2 sets. Words and numbers. Big hit!

Great learning tool for our 2 year old. Good quality, very durable and perfect size for toddlers. Nice colors and pictures on cards are easy to understand.

Great flash cards to help teach your little one how to count to 26. Cards are good quality and easy to read, pictures are cute.

My granddaughter is 2 1/2 yrs old but very bright i observed her potential hence the reason i decided to purchase these educational items ,it is already started using it and she seems to be embracing and excited with the numbers .

Love but the pictures could have been more clear and the quality of the card could have been a bit more sturdy.
