McGraw-Hill authors represent the leading experts in their fields and are dedicated to improving the lives, careers, and interests of readers worldwide

When I retired from teaching AP and IB English language and literature, I had a very old copy of the original printing (Warriner's) of this book on the eleventh-grade level, but I donated it to a young foreign language teacher who was struggling to teach her students because they did not know their own English grammar. Then, as my grandchildren began high school, their parents complained that their own children were making dreadful errors in composition because they did not know their grammar. More troubling was that their young teachers didn't know their grammar either and were awarding A's for writing that not only did not deserve the grades but also would not be given a good score according to the SAT guidelines when the students prepared to enter college. Each of my

children's families now have one of these on an appropriate grade level, and I regularly give the senior level as a high school graduation gift.

Good product with prompt delivery

School required book.

Useful and relevant.

Very useful for referencing credits, or footnotes/bibliography in MLA form, which has been a bummer for my daughter this year.

Very helpful for my students.

Great purchase!

I bought this book for homeschooling my granddaughter. It is a normal grammar book, with all the usual lessons on parts of speech, writing errors, sentence structure, paragraphs, and so on, and can be used for homeschool. However, it doesn't really try to make things interesting. This copy also had many pages that were loose or falling out, and I don't know if that is usual for this book because of shoddy manufacturing, or if this one was a lemon. But it was usable, anyway.
