The Little Black Book Of Big Red Flags: Relationship Warning Signs You Totally Spotted . . . But Chose To Ignore

Synopsis

You've done it before. Saw something wrong with him--whether it was suspect grooming habits or ridiculously childish behavior--but let it slide. It's not that big of a deal. Except it totally was. You wanted to fall in love, but ended up going insane. You swore you'd never do it again. But did. Don't beat yourself up. In the search for love, we've all either blatantly ignored or completely missed red flags. Instead, smarten up. It's time to figure out what you missed and learn how to avoid similar flagtastic fiascos in the future. If you raise your red flag awareness now, you'll be able to greenlight a real relationship down the road.

Customer Reviews

After following the blog for several years the book definitely didn't disappoint. The stories made me both laugh and cringe, and (unfortunately) I can relate to many of the red-flag-worthy references. Behind the humor is a great deal of truth and good advice that both guys and gals will enjoy. Highly recommended!!!

The Big Red Flags blog has cracked me up, and made me cringe, for a long time. So I was thrilled to see this book released with new horror stories and some of the funniest entries from the blog. It's a hysterical read for guys and gals alike. As a bonus, it will help you recognize total creeps and potential stalkers in your own dating life.

A wonderful, absolutely wonderful off the charts book about red flags. It also gives many small stories mind you some real some not, to make it's point about how you can find them in the real world. It is not just a small book no, it has so many big red flags that you wouldn't have even thought about thinking about. Things that you wouldn't have even wondered that were red flags and are. I full heartedly recommend this book to one and all and everyone inbtwn

I bought this for my sister who dates 'not so great' guys. She sees the red flags, but ignores them. I hope this helps.

Helped me to realize the abusive relationship I was in and that I deserved more. This isn't the best book on the planet, but if you're desperate for answers and need to relate to anyone, this is a good place to start.

Wonderful book great for anyone looking to be in a relationship or already in one that you are having doubts about. Gives you a lot of information. I wish I had this book 20 years ago.

I like the book and there are a lot of red flags not included in the book that one learns from experience.

I am an author writing my second book and reading through a lot of books. My first book's bibliography lists many books but I'm still picky about what books influence my writing and are listed in my biblios. I didn't have a lot of "hope" for this book but since I'm doing research and I talk about red flags, I did a search on "red flags" and this came up. I ordered it and thought it looked a little gimmicky. It's not. It is an excellent book and I am now recommending it to readers of my book and my blog readers. I know so many women who will get a lot out of this book. As a self-help author who reads A LOT and gathers good research materials for my books, I rarely go onto a book's page and write a review. (I'd be here all day). But this one deserved a shout out. Highly recommend.
