Our Sea Turtles: A Practical Guide For The Atlantic And Gulf, From Canada To Mexico

Synopsis

Blair and Dawn Witherington intimately reveal the lives of sea turtles in *Our Sea Turtles: A Practical Guide to the Atlantic and Gulf from Canada to Mexico*. The book's pithy, well-organized sections are lavishly illustrated. It is a guide for anyone who is the least bit curious about these fascinating marine animals. Bite-sized installments harmonize with multiple images on each page to make this book a unique and entertaining resource. The story it tells covers understanding, experiencing, and saving *Our Sea Turtles*, with descriptions of how these endangered animals contribute to our happiness and why they deserve a helping hand.

Book Information

Paperback: 275 pages

Great source of information about sea-turtles. After serving as a volunteer on many nesting sea turtle walks over the past eight years, I thought I knew a lot about the turtles. This book filled in lots of gaps in my knowledge - plus it has beautiful photos and illustrations.

Outstandingly Awesome Factual reference to what the Endangered and Threatened sea turtles are all about. Photos, illustrations, guides and the written word all pull together the concept and understanding of the species. Easy to read and understand. GEM

I work on a Coastal Turtle Patrol and this book is very educational and helpful in understanding the world of our sea turtles. The pictures along with the accompanying information are incredible.

Very informative. I would recommend to anyone interested in sea turtles.

Best sea turtle reference book I've seen. The photos and illustrations are amazing and this book is written in a way that is useful for amateurs and enthusiasts alike.

This is a wonderful book. It has clear scientific information combined with the authors fascination and love for these amazing animals.

Great resource for biologists and people who just like turtles!

WOW WOW! Loads of pictures, well organized, great explanations, and scientific reference; highly recommend! I will buy any other books by this guy!
