## Customer Reviews

My children surprised me with a copy of this book on Mother's day! Flowers are the norm for us. It was pleasing to me that they wanted to know more about my life. I was impressed with the variety of questions the author used to get an overall picture of a persons life. When I completed filling it out, I gave it back to them. I wish I'd had a book like this to give my parents when they were alive. We didn't talk much at home and sadly the stories are gone. I recommend this book to those with aging parents and at least make a start on family history. -- - VerdeneGreat book! I gave this to my mom for her 70th birthday. There were a few other older family members there and we read the questions aloud and let them all answer. It was fascinating! Like our own history lesson. I only wish we had more time to get through more questions. I told my mom she didn't have to "write in" the answers, but that we could just pick a few questions to discuss over dinners. There are several different sections that ask a series of questions grouped together -- from your childhood, your beliefs, love, world events. Highly recommend. -- - Jennifer HandWonderful book for new parents. Some of the

questions are kind of outdated (what were you doing during x war lol) and meant for people a lot older than I am but I still liked the book to give to my child one day -- - Tracy Johnson

This is a wonderful book, with lots of good questions I probably never would have thought to ask. The only reason I rated it a 4 out of 5, is because I wished it had more room for writing out the answers. If I was just a tad bigger with more space for writing it would be a PERFECT book.

Questions are cute. Not great to give to a Pastor and his wife so we will be skipping a few questions. Overall, great concept. Don't like the fact that you can only buy one at a time, as most people have two sets of parents to buy for. Their own and in-laws.

Exactly what I was looking for. I love asking my FIL these questions.

Questions are good for any body not just for grandparents. Good idea to start thinking about these and writing down your thoughts, even before becoming a grandparent.

I gave these as gifts to my parents and in laws. I have told them to fill them out and return them so that I have them. They all thought it was a great idea and have enjoyed filling them out.

Great book with great questions. Can't wait to have these conversations with my parents and thinking about filling one out for my kids in case something were to happen to us.

Excellent resource. Just do it before they are too ill to have the energy. Some just won't do it, but it is worth a try
