Mike Devloo is a bilingual author and Civil Engineer living in Colorado, USA. Mike grew up playing basketball in the sweaty suburbs of Houston Texas. "I studied hard and got a scholarship to Colorado School of Mines. I was so happy to get out of Texas and live near the mountains for

University." With a year studying Engineering in Spain, he completed his bachelors in science in Engineering at Mines in 2005. Although now a licensed civil engineer, Mike has strayed from the typical career path and since 2007 he has explored a broad spectrum of opportunities from construction writing, to teaching, to raft guiding in India. Mike enjoys a simple outdoor lifestyle and claims that he would rather live in a tent in a beautiful place than work a desk job in an oppressive crowded city. He is an avid kayaker, mountaineer, and snowboarder, always ready for a new adventure. His professional interests include green building, English-Spanish construction communication, engineering, non-fiction writing, and outdoor film. When between work Mike escapes through travel. "Costa Rica, Colombia, Ecuador, Hawaii, and Canada are beautiful. Africa and India are amazing and eye opening. But it's hard to beat summer in the Colorado Rockies!" Mike's website for Engineering and English Spanish products for construction and other published works is CasaConstructionBook.com Youtube page is youtube.com/gnarseeker

I use this book to inspire my students - great motivational tool.

I have read many travel and cycling narratives and have cycle toured. Although the author is good at relaying his and his sisters experiences (the good, the bad and the ugly), overall I thought it a poor effort. It read as a rough draft, more of a transcription of his personal journal. It was filled with misspellings. I'm not a grammar junkie, but it seems that he could have used spell check and proofed it at least once in order to catch the obvious and frequent errors. In addition, I was taken aback at his racist comments and references and his rather crude and emotionally immature accounting of his passionate encounter. TMI and the wrong genre, I thought. It seems as if the book could have benefited from having an outside reviewer before being put into print. Given his racist references, I am sorry that I contributed my money towards his pocket.

I love this book, I think the author conveys a real adventure through in-the-moment writing and humorous dialogues. A real journey to the other side and some real insight to actual guerilla culture and war fare. They tackle some amazing feats!! This tale is inspiring and the authors character is totally relatable. I would recommend this book to anyone who can handle humor, adventure, raw truth, and excitement galore!

Guide book, epic adventure, treatise on freedom! This tale has it all. Puts me in the mind of Che Guevara. The Motorcycle Diaries: A Journey Around South America. Gringos vs. locals, brother

vs. sister, cyclists vs. The Guerrilla Highway ... awesome book.

Really liked this one. An amazing adventure with some great historical references. Recommended for cyclists, adventurers, travelers, and freedom-seekers. Hope we will see more from Michael Devloo.
