A Pull Of Moonlight (Darkness Bites Book 2)

Synopsis

I spent my entire life thinking vampires were the enemy. I was wrong. After spending my nights sleeping around and tormenting the vampire in my head, falling for James is truly the icing on the cake. But it was all fun and games until I found out the vampire didn't want to be in my head any more than I wanted him to be there. Not only does he not want to be there. He is sacrificing his own life in order to set me free. The damn vampire is a martyr, and I'm the one he's trying to save. Now I need to do everything in my power to save his life. This is a slow burn reverse harem erotic paranormal fantasy series. These books contain explicit scenes and adult language and are intended for mature audiences.

Customer Reviews

Absolutely LOVED!!!! A new favorite PNR book of mine moving on to book 3 now!!!

Enjoyed it.

Sorry really tried to like this series but I just can't...Charlie (MC) is too selfish, weak, stubborn and naive I could hardly stand it. For someone who was supposed to be tough and in the police force etc... I'm dumbfounded with her lack of common sense and obvious prejudice towards vampires. Her back and forth to help Erik or not, her woe is me mentality in book 1 and then her constant blacking out in book 2 yah no thank you I just can't, this MC is just totally not for me. But I am happy it was KU, cuz I would've been hella pissed off if I spent money on this.

This second book keeps up the heat and adds more mystery to the story. You are not really sure what she should do as she wrestles with her choices and their consequences. I felt much more connected to the characters and strongly suspect what kind of complications will be added soon to the mix. I recommend reading the books in order. Each book is a pretty quick read. I am voluntarily reviewing a copy I received.

wow!! Book two carries on from where book one left off. Erik is dying and Charlie feels it through their strange connection. The excitement continues as she falls more for James, but needs her connection to Erik. The chemistry between the three main characters is amazing, Nicole Marie kept me in the edge of my seat with this exciting, well written read! I highly recommend this book and I am now excited for book three in this compelling series

Still waiting. The needless loss of life was disheartening and her not understanding what was going on seems unrealistic. She knew her shifter lover was extremely attached in a very short period of time and that shifters and vampires were enemies. She lied to him about what she was going to do but left his car parked near the vampire lair where he could easily track her right to the door...

Playing with fire and gasoline often results in an inferno.

Ok, so I hope I'm not the only one to see the ridiculous similarity of the book to that of Twilight. The 2 men are Erik and James versus Edward and Jacob. Funny how even those names are other characters from Twilight. Main girl is Rose, hmmmm. Are talk about a the worst kind of leading lady. She is so stupid. I mean she certainly doesn't mind hooking up with random strangers and being smutty, but she has no problem judging others. The back and forth of what ever should I do gets old real quick, as does all the repetitive dialogue and overly detailed writing. It seemed like the author was just trying to fill space. I skipped several paragraphs because of this. Honestly, is this the

standard for good writing nowadays? Thank God I didn't pay for this or I would have been very irritated. The first book was longer and while it annoyed me with the same carp I still moved on to book 2. Again, only because it was free. I think this book had maybe 10 chapters? Most of which we had to either read about her going back and forth on if she should say Erik, or her passing out again. That was all she did for the last few chapters. I would have given this book a quarter of a star if I could have, and that would only be because the cover was half way decent. This is definitely a harsh review and I normally try to find something positive about whatever I'm reading, but I personally just couldn't with this one.

Out of the fire and into the frying pan, Charlie finds herself in a heap of trouble. Well-defined characters act in crazy and unexpected ways and strange things happen for no apparent reason. All is not well in Charlie's world. Can't wait to read the next book. Great read. I received an advanced reader copy free and have voluntarily chosen to leave an honest review.
