Customer Reviews

The book was a library throw away (as seen by its stickers) and stated it was not the currant value of things so I am not sure how much it was off but it gave me some idea of what things had gone for. Disappointing but ...

Great book for Campbell's collectors. Excellent condition.

Great, so much stuff in the book.

Good

it told me just what i wanted to know was very helpful in pricing my collection would recommend to anyone

I worked for Campbell's for 26 years in sales. We received numerous promotional items that were never available at the retail level. Some were shown in this book but so many weren't and those are the ones I'm interested in finding and know are worth the most. Book, though interesting, is very

incomplete.

We searched & have finally found the informative guide for our Campbell's Soup "stuff" collection. An excellent book which contains ONLY Campbell's items. So many collectible books listed just a few Campbell items. But, this is THE book we wanted. The format is "user-friendly", by category in alphabetical order. Lots of pictures for comparison. We use the book constantly. We are always looking for unusual Campbell items, and the guide is super helpful. We thank the authors for taking the time to put it all together.

The comprehensive Campbell's Soup collectors guide will help you identify the many products produced over the years, and estimate their value. It is loaded with razor sharp pictures of over 600 items and includes prices of more than 1,700. Easy to use, as it is arranged in alphabetical order by category of collectible. Provides the collector with a guide of what to pay for items you intend to buy. Each category includes an interesting and useful history and summary of the category. Every Campbell's collector will find this up-to-date book of value.
