Customer Reviews

I have to say I was disappointed in this book. The first story was not bad, but I don't think I would have purchased it if I had know there were 3 stories in a book under 300 pages. There many grammatical errors. Who ever does the proof reading for the publisher needs to find a different line of work or the writer needs to find a new publisher. Sorry, cannot recommend.

I read the first book in this series and it was okay enough that I bought this one. Total mistake. I think the alien guys (and the human woman, for that matter) have gotten dumber since the first book. The king is a total idiot that couldn't think his way out of a paper bag. The h is also pretty

clueless. I think the author forgets during convenient times in the book that the h is not able to stand or walk without severe pain. The way this author handled that whole storyline was juvenile and immature. There was no real character or relationship development at all either. *SPOILER ALERT! The king is too dumb to live. He left the shock collars and nipple rings on the stolen women for no good reason and was then shocked when they were used to track the h so the bad guy could torture the crippled lady (The authors word not mine). He and all his tough men also couldn't figure out for themselves that the same technology could be used to track the kidnapped h, the Earth women came up with that solution. And after being tortured almost to death by the shock collar the king didn't bother to have removed, they are able to have awesome sex all night long so she can be converted to heal her. Because this "advanced" society has the most pathetic medical technology ever. Don't waste your money on this one. OH! The "bonus book" (cause the book you actually buy only goes to 60%) is even worse. Total drivel that made my brain hurt.

#DrogonShifters#5Stars I love this book, I could feel the pain that she was going through. The joy he had when he found his soulmate. Anytime that you can feel the character it's a darn good book. This writer's characters are just phenomenal, yes, there was some mistakes and misspelling, a few has really never bothered me. Definitely a Must

Read. Title: Bryniar:Drogon King Eleanor Fergusson is a human who when she was young her parents were in a car crash, only Eleanor survived she was hurt, her spine was so badly damage, basically losing the use of her legs, since Eleanor still felt them she was always in pain, sometimes excruciating that's why she's in a wheelchair. Eleanor was kidnapped because she saw the kidnappers and they couldn't leave any evidence so they took her too. Asgar bought her bringing her to Planet Zuvrak hiding her at his place, his people have never been injured since they heal right

away seeing Eleanor in a wheelchair would probably come to a bad conclusion, Asgar kept her so Eleanor and Sasha could be together. But sometimes in life nothing goes as planned. Bryniar is the King of the Drogon Shifters, he wants all the earth women he can get. He wanted to find his soulmate, as well as his people to find their soulmates. When he least expected it he found his soulmate. Bryniar couldn't stay away from her. Could his people accept her? Will his people accept her?

Title: Coldron: Drogon Healer Gil Ra is human, Fashion Design Student from earth. Before she was kidnapped she was so depressed she was going to take things in her own hands, jumping off something sounded good, than they took her. Now she figured it's just a matter of time and she will do it. Then Gil Ra was asked to design plus sew some clothes, Zuvrakians taste in clothing was so appalling and she was so happy to do it. But even through the happiness her sadness was so great she didn't know if she could go on. She had a big secret no one would understand. Colton is a Alien Doctor from the Planet Zuvrak he's taking care of the humans from Earth on the ship. Though he doesn't know the body structure of a human but he still trying to take care of them. Beside maybe one is soulmate, when he saw the video he couldn't believe his eyes he found her. All he wanted to do was take her in his arms make her happy and see her smile because she didn't smile or laugh and it hurt his heart, he would give her the world. She was his heart his soulmate he would make her

Larrin aka: Chayis a wealthy feline humanoid with a huge trust fund, from the Planet Narova. In the Defense Force, he was injured (taking six months to heal) he received full control of his funds. Buying himself a older ship that was equipped with newer technology. Chaytok was on his way to the Planet Vesta Three where he was going to buy land. He applied to the Narovian Matchmaking Agency but as of yet they hadn't found him his fated mate, his meomee. Weeks into his trip to Vesta Three he realized he was off course something was wrong with his ship. Now the only choice he had was to land on Earth. Was it destiny? Alexa James is human, who was having a hard time trying to clear her mind after she found out Lawrence was out of prison. Riding Jetson around her property in West Virginia, all she kept thinking about was how scared she was. Reminiscing of that

brutal time when it took her awhile to figured out she was in an abusive relationship, she packed up and left went into the city found a job, one day, months later she came home he was there he had found her, terrorized her, beat her until she would have sex with him, after escaping she pressed charges now he's out of jail on good behavior. Alexa knew he'd come after her. What she didn't realize was the man of her dreams that she's been having is coming

He was the king and his brother was hoping he would find his soulmate with the next group a few minutes late to be brought in. But when I came in he didn't find her but he had this feeling there was somebody not there he kept smelling another scent.. Eleanor had been hurt in a accident when her Family wrecked she was in a wheelchair. When the aliens came to kidnap her roommate for a roommate try to get her to leave but she wouldn't do it so they ended up taking her since she was saying. But considering she was in the wheelchair they figured she was broken and not worth any money. One of the lizard aliens tortured her it was going to kill her when her roommate said that she wouldn't go unless she was brought with him so they bought the broken Eleanor too. When the king meets her knows immediately she is his soulmate. I think this one was a little bit better than the first book has a little bit more action and it will bit more things happening so overall this was a better book.

It's a great story.. lots of type-os and switched or missing words.. but if you can get through that, it's a great story.. I would recommend it to anyone who likes shifters or alien love stories..

twice. Sex scenes are not well depicted. Look how Amanda Milo's, and Evangeline's- author of Claimed, do theirs. Readers want hot scenes. What is here is like bell peppers, not ghost peppers. Sweet scenes, though.
