Dr. John W. Newstrom and Edward E. Scannell are respected authors, professional speakers, and seminar leaders. They are the coauthors of McGraw-Hill's best-selling Games Trainers Play series, which has sold more than 250,000 copies.

Sad because there are other "teams" than super stuffy office settings. Teachers work in teams, counseling staff, teachers want their student work as teams. I was hoping for more diversity of activities that weren't written for an office only. If I attempt to use those I will have to extremely overhaul each to make it applicable which defeats the purpose of buying a book for new activity ideas.

The price was fair. I found the information helpful.

Really bad ideas. I never found anything useful.

Not good.

use weekly at work

This book sucks! I literally was not able to find one clever, effective or original activity in the entire thing. Not one. Write down a story about yourself or a provocative question you want to ask your co-worker, and then ask it of them? Really? If it wasn't going to cost me more to send it back than it is worth, I would.

This book is similar to the others that in this series. The book is great at offering teambuilding exercises. The book is a bit dated in its look and could be updated for current usage. These are physical games, and the book provides information on how to not make anyone be embarrassed, cause harm, or do anything inappropriate. Really good.

As a scoutmaster I am always looking for ways to build team skills and responsibilities; as well as leadership within the team.
