## Customer Reviews

"A murder + a detective with issues = a great read" News of the World, Fabulous Magazine "A fast-paced romp of a read" Best "Compelling stuff" -- 4 stars Woman's Own "Master writer James Patterson conjures up more literary magic in his latest crime thriller" -- 5 stars Star Magazine "Gripping" Daily Record --This text refers to the Digital edition.

James Patterson has had more New York Times bestsellers than any other writer, ever, according to Guinness World Records. Since his first novel won the Edgar Award in 1977 James Patterson's books have sold more than 300 million copies. He is the author of the Alex Cross novels, the most popular detective series of the past twenty-five years, including Kiss the Girls and Along Came a Spider. He writes full-time and lives in Florida with his family.

Another great James Patterson Women's Murder Club novel but of course with two different plotlines going back forth throughout the novel. I still gave the novel a 5 star rating because for myself once I pick up a Patterson book I can read 50-100 pages straight through in one sitting because the way he writes just keeps the reader going with near cliff hangers. The book had multiple edge of your seat parts between the main characters and to this day the characters still act as a family and watch out for each other. I don't give out spoilers in my reviews but this a great add on to the Murder Club novels and you as a reader will be glad to read this novel and add it to your set. In closing I hope Mr. Patterson keeps up these set of books for a long time to come because I have enjoyed every single book since the first novel way back when.

I couldn't figure out "Who Done It?" In the Dennis Martin murder. Several good possibilities and in the end, what a story to behold. The side mystery turned out well in favour of the LGBTQ Community and in betterment of people in general. On the whole, a good book. Now onto #11!!!!

I have enjoyed most of the previous novels of the Women's Murder Club series and I believe the 10th Anniversary was a good addition. Yes, James Patterson doesn't have the greatest prose. The man isn't John Steinbeck or Ernest Hemingway, but his books are entertaining. The book is more like three short stories combined into one novel. First, there is Lindsay Boxer investigating a teenager whose baby was missing and the young girl supposedly has no idea where she is. Then we have Lindsay with an issue concerning her marriage to Joe Molinari, a police officer. The last story is of Yuki Castellano, a lawyer and how she struggles to prosecute a woman who she believes murdered her husband. The stories are entwined together creatively for an enjoyable read. The reader never has to put a Patterson's book down because he creates mystery, adventure, and murder throughout each book he writes. This series is fast paced, some you'll like more than others but James Patterson still keeps you interested and tied to your seat to finish the book in one sitting if you wished.

James Patterson never disappoints. His books are always page turners and I really love them. This one is no exception. I will not give away any of the plot, but you can rest assured that this will be a good choice for a new book to read!

This is another very good murder club book. It has a good story line and you do not know until the end the outcome. I have read almost all of the murder club books and enjoyed this one as much as the rest. It is better to read them in order but not required. They all stand on their own

As with many of James Patterson's mysteries, they are easy to read. This book got my attention with the first paragraph. It has a few story lines all going on at once but the Women's Murder Club set's each stage apart by their own characteristics and by the women of this club. Very entertaining. Twists and turns, then sympathy abounds by each story told. Fighting for justice brings everything to light when truths are unfolded. In the end goodness prevails and justice is served. Good book. Another good mystery from the Women's murder club. Not just one mystery but a couple of mysteries in the story. I loved being back with the women of the mystery club. I just liked being with Lindsay, Claire, Cindy and Yuki while they work their magic on finding the murderer. If you have not read any of the Women's murder club books I highly recommend you just start reading them from the first one.

Wow. Loved this one too. Lots of stuff going on in this one. All loose ends tied up nice and neat. I'm gonna have this whole series finished before the end of the month, so get busy James. Lol. Gotta go and purchase 11. Talk to you soon.
