Caroline Myss was born on December 2, 1952 in Chicago, Illinois. She received a bachelor of arts degree in journalism from the Saint Mary-of-the-Woods College in Indiana in 1974. During her career as a journalist, she interviewed Elisabeth K bler-Ross, the author of the book, *On Death and Dying*, which inspired her to pursue a master's degree in theology from Mundelein College, which she completed in 1979. She also studied intuition and energy medicine at Greenwich University. In 1982, she started giving medical intuitive readings and has been in the field of energy medicine and human consciousness for 20 years. She specializes in assisting people in

understanding the emotional, psychological, and physical reasons why their bodies have developed an illness. She has written numerous books including *Anatomy of the Spirit; Why People Don't Heal and How They Can; Sacred Contracts; Entering the Castle; and Defy Gravity: Healing Beyond the Bounds of Reason.*

Described as Advanced it means exactly that. But, most chapters in the series of 9 CDs are easy to follow and really don't need too much previous spiritual reading. The material reveals what the listener is ready to hear no matter the stage of a person's inner development. Listen to chapters that appeal most to you. And when they appeal to you. You will be sure to learn something you've never heard before, gain new perspective you've never had before. And if you were to listen to the lessons again at another time, you will be sure to still pick up new insight only because your own experiences and spiritual maturity add to the experience of listening to this series. Mysticism is being able to see the unseen world---to see the invisible world. Mysticism is deeply cultivated insight. Carolyn Myss teaches you through *Advanced Energy Anatomy* ways to cultivate your insight and presents mystical insight in easy to understand monologue. She is truly a leading teacher of our times. Her speech is easy to follow and her samples are always practical and involving. The introduction and discussion archetypes can help you understand your self better and your relationships with others and the world better. The lessons on creativity and spiritual vocations are inspiring. Being able to see your creativity and your dreams interwoven and inseparable can help you understand yourself better and seek fulfillment...at the same time realizing your divine potential. The discussion on survival, creative and visionary intuition was only one of my favorite new discoveries. For those who seek to heal themselves and maybe even others, this audio set is very, very enlightening. So much wisdom and insight is found here! Don't just listen, take out your notebook, post it notes or journal and write the best of what you hear. Of the many spiritual readings I have endeavored, here is a series that is well worth your money. For practicality, for spirituality... for joining heaven and earth within you...don't miss this series!

The recipient is constantly raving about how wonderful and life-changing *Advanced Energy Anatomy* is. She was thrilled to receive the set and would highly recommend it to all.

Keystone in your spiritual path and awakening for the new reality. A must read. Love it

Loved it! Loved it! Loved it! I am an information junkie and this was my candy. If nothing else learn

the four archetypes of survival; the child, the victim, the prostitute and the saboteur. It all makes sense as you hear her explain how we operate from a place of survival instead of a place of power. Enjoy every minute...Love and Light...Alexandra Alexander

This is an amazing series for people that are looking to tie together a number of spiritual books. I'm listening to it over and over and learning something new each time.

The book is just OK. I have read another book by Caroline Myss. The first book was a bit better than this one. Manifesting your dreams, visualizing your needs and tuning your power of choice are great benefits of this area of reading. Dr D G Zarlengo

Caroline tells it like it is. She speaks in a way that you really grasp what she is saying. I love her animation, she is real.

Caroline Myss speaks to your heart and if your heart is listening, what Caroline has to say will change your life and thus change the world for the betterment of All.
