Customer Reviews

I love this book, it is just the right size to carry in my pocket book along with 5 crayons to entertain my preschool grandchildren,1. At 4 and 1/4 inches wide and 5 and 3/4 inches long it is perfect for Grandma's or Mom's purse2. With 59 farm animal illustrations to color,3. It is not just a coloring book, it is also an educational reading book , the bottom of each page has information about the animal in the picture.4. The binding is reinforced, not just glued, so you can bend the book backwards to flatten the book so the pages lie flat and the book does not tearExample of reading: (Cows eat grass and from the grass make Milk.)(Baby sheep are called lambs)(A foal can stand up and walk just half an hour after it's born) I purchased this in July of 2013, and I cannot even begin to tell you the number of hours I have entertained grandchildren with this in restaurants, at ball games, in the car, waiting at the doctors office, in hospital rooms,at the air port, at concerts, etc, etc.For this low price, every Mom and Grandparent should carry it in their purse.

I don't understand how kids can color it this. Shame on me for not reading the description better, but who would have thought a coloring book would be SO SMALL. It's the size of my hand with detailed pictures. Not what I was expecting. I was picturing a regular sized book with cartoon pictures of pigs, cows, chickens etc, but the pictures are not cartoony or easily recognizable and the size is just WAY too small.

This is a cute story about farm animals. It kept him interested through the whole story. This is a good little book, when I say little, I mean it! When I ordered this, it was a great deal but when I got it, I know why. It is a small one, so it would be great to take with you when your at an appointment. I just expected it to be bigger. But the story is cute and he really likes this book!

This is a great little coloring book. I read some of the negative reviews that complained about the size. Well, if you take the time to read the product details, you will see that the size is clearly stated - 5.7 x 4.2 x 0.2 inches. Others didn't like the art. Most of these coloring books have the "look inside" feature, so you can see what you are getting before you buy. I like the fact that they aren't the hottest licensed characters, but ordinary creatures and items that are easy for toddlers to recognize and color. These are perfect for my grandkids and are easy to take along because they are small. I would say that some of these books are far too simple for a 7 or 8 year old, and some are too detailed for younger kids. The key is to pay attention to what you are purchasing!

Farm Animals Coloring Book (Dover Little Activity Books)The adult coloring book was purchased as a gift for my Mother-in-law, who is in a nursing home. She loved the book but I must note it's more simplistic and could also be used for a child as well. Great price and nice product.

I guess I should have read a little more closely but this book is small. I was expecting to use it for learning time and now I put it in the diaper bag for when we go out to restaurants. Not what I was hoping for but my LO still likes it.

Dec2013 - the quality is fabulous on this little book! The animals and pictures are wonderful and nicely sized so coloring will be fun for the youngsters. I originally ordered one booklet based on the reviews so I could check for quality myself. I have now ordered a large quantity to share with my grand-girls class which ranges from 3-6 year olds. The other Dover Little Activity Books I ordered

were also quality. Very cute and nicely sized! The class will sure enjoy this book and the ABC one.

Buyer beware. This is an itty bitty book that young children have difficulty using. It doesn't open flat without losing pages; it was not designed for actually coloring. The reason there are two stars instead of just one is that the variety of unusable pages is actually broad, lots of different animals.. I would never purchase this again.
