# Breast Sonography Review

## Synopsis

Kathryn Gill's Breast Sonography Review illuminates the facts and principles on which you will be tested by the American Registry of Diagnostic Medical Sonography (ARDMS), hones your test-taking skills, and reveals your strengths and weaknesses by exam topic. Based precisely on the breast specialty exam outline published by ARDMS, this review contains 349 registry-like questions (including CME activity questions) together with answers, clear explanations, and quick references for further study. Image-based cases and schematic illustrations prepare you to tackle images, anatomy, and pathology on the exam. Coverage includes breast instrumentation and technique, normal anatomy, benign versus malignant features, specific lesions (benign), specific lesions (malignant), and invasive procedures--all in the same proportion as the exam itself. Approved for 6 continuing medical education credits.

## Customer Reviews

Kathryn A. Gill, MS, RT, RDMS, FSDMS, has been practicing, teaching, and writing about ultrasonography for more than 20 years. She is Program Director of the Institute of Ultrasound Diagnostics in Spanish Fort, Alabama. Kathy became a fellow of SDMS in 1993 and a Senior Member of AIUM in 1996.

I used this book to study for the Arrt breast ultrasound registry exam. It was an excellent way to

prepare the the exam. A lot of the answers provided explanations and information that was very useful. I found that a lot of the questions in the book were relevant to the content of the exam. I also used X-Zone a few days prior to my test and found that some of the test questions were similar to those in the exam. I used a friends ultrasound physics review, which comes from the same company as this book, and found that it did help me brush up on the physics, but since it pertained to all types of ultrasound was more information than I needed for this test. I passed the test with a higher score than I had expected!

Complete Guide to breast sonography. A bargain for the price.

Helped me pass my breast registry!!

100% what's on the ARDMS breast board

Very helpful!

Information to the point.
