Pages 137-152 are missing from the book! They were not cut out, they just were not included in the production of the book!

great item

ok

Good

OMG WHAT CAN I SAY? I had a required textbook and according to the description, this was indeed the textbook I was required to buy! With anxious fervor I waited for my shipment to arrive! Would it indeed be the required textbook? Or an imposter? What if the pages all came blank? I can happily say that this textbook is as described and in full working order with words and content on

every page. Ideally it will be exactly what I need!

One of the better textbooks i have used. Wasn't overly mad about price since it had good info

Very clear and informative.
