Brew: Better Coffee At Home

Synopsis

If you're on a first-name basis with your barista but haven't perfected (or even attempted) making café-quality coffee at home, let *Brew* show you the way. In this approachable guidebook, author and coffee expert Brian W. Jones demystifies specialty coffee's complexities, teaches you how to buy the best beans and brewing equipment, offers in-depth primers for mastering various slow-coffee techniques (including pour over, French press and moka pot), and supplies you with dozens of recipes for invigorating coffee-based drinks and cocktails. *Brew* isn't a book for coffee professionals, but rather an indispensable and accessible guide for any specialty-coffee lover who wants to make better coffee at home.

Since 2000, Brian W. Jones's experience with coffee has involved working as a barista, being a home-coffee enthusiast, serving coffee at TED conferences and the Sundance Film Festival, competing in and organizing coffee competitions, and cofounding a coffee-roasting company in Oakland, California. Brian has written about coffee and its intersection with culture and design since 2009 on his website *Dear Coffee, I Love You*, and he has given talks about coffee around the world from Seattle to Stockholm to Shanghai. As a designer and writer, Brian uses both mediums to help others better appreciate and enjoy their daily coffee.
