Rarely when we think about danger or our chances of being harmed do we think about the people that we know. Most of the time, we do not think that the people we work with, those that work for us, or those that we are associated with would ever cause us harm, however, this is what actually happens frequently. As you read this book, you will begin to see just how often it does happen. None of the cases in this book have ever been solved, but when you look at the evidence that will be presented to you, chances are that you are going to come to the same conclusion that the police have, most of these people have gone missing at the hands of someone they knew. On top of this, because these people seemed to vanish from the face of the earth, no one has been held accountable for their disappearances. Their families have not gotten to lay them to rest and still mourn their loss as they have been unable to fully grieve not knowing if the person that they love is still out there or if they have passed from this life. While these are quite intriguing stories, they are heartbreaking as well. As you read them, you are reading about experiences that families have gone through, true stories of real terror as parents found out that their child was missing, as children found out that their parents were gone, and as friends found out those that they cared for had simply disappeared...Here's A Preview Of What's In This Book...Missing Persons: Everyone's HeroMissing Persons: Five Months Pregnant and GoneMissing Persons: The Springfield ThreeMissing Persons: The Missing BrideMissing Persons: A Case of Misplaced TrustMuch, much more! Customer Reviews

Great read, about several missing persons. This was sad, also. Seems like the missing, had more to fear, from people they know, than from strangers. The persons who did the killings, in some of these, were cowards. Took their own lives.

Excellent read..interesting thoughts very disturbing to think one might need to realign who we truly trust.

Very interesting book. Nice read. Makes me sad to think about what the victims and their families are going thru.

A disturbing but well written book. The whole idea of someone just disappearing off the face of the earth never to be seen again. Is quite frightening. Well worth a read.

It's ok, not great. Short and sweet, I enjoyed it. I need to write six more words so I can post

I loved this book it was stories I had forgotten about and it makes me sad to think all these people probably suffered before death so thank you for writing about these crimes we should never forget about the victims and their families and we should all pray that if their crime isn't solved maybe the criminals at least are serving time in prison for something and not just free to harm anyone else.
