Love You MOM: Doodle & Dream: A Beautiful And Inspiring Coloring Book For Moms Everywhere

Synopsis

The Perfect Gift For Mothers Any Time Of The Year. Love You MOM: Doodle & Dream A beautiful and inspiring adult coloring book for moms everywhere. Give your mom the gift of relaxation with this inspiring coloring book. Beautifully detailed black & white illustrations will take your mom on a journey of de-stressing art therapy, while the gorgeous words & quotes celebrating motherhood will remind her just how special she is. Whether she already enjoys coloring or hasn't picked up a pencil for years she will find something here to love. Each of the 50+ individual drawings is specially printed on a single page with the reverse left blank so they can be cut out and kept to create a picture perfect for framing or displaying. Take your mom's precious free time into a new and thoughtful dimension and show her your appreciation. You may also enjoy..... Dream Catcher: a soul bird's journey. A beautiful and inspiring coloring book for all ages.

Customer Reviews

This book is full of a variety of illustrations, making it hard for me to choose a star level. Some illustrations are very simplistic, some are mostly black, some are very detailed, some are simply flowers, some are fish and animals filled with intricate designs, a few have such tiny details I do not think I can color them, it would take a very sharp pencil. I am giving this a 4 star, because I love the Mom inspirational quotes, I love some of the pictures and I really don't like some of them, but as a Mom who enjoys coloring I would be happy and touched to get this as a gift from one of my children. 1. 51 Illustrations printed one per page with beautiful, inspirational sayings about Mom on the back of each. 2. The paper is not very heavy, Fiskars Gel pens and Crayola markers bled

through just a little so either use colored pencils or remove the pages for coloring or place a scrap sheet of paper under the page you are coloring and make sure the picture is dry before removing. If you like this book also look at Love you Grandma , an amazing coloring book available on .

I bought this for my mom as I have been coloring recently and she had shown interest. It arrived in the mail and I was looking through it and there are some neat designs, and she was thrilled to get it as a gift. One thing of note though....one of the pictures is of a vagina...!! Had I known, I may not have purchased the book. She hasn't said anything and I guess the drawing is in good taste and maybe she won't notice because of the design, but just thought I'd share!

I bought this for my vacation quiet time...I completed 2 full pages and working on the third. It's addicting and indeed very relaxing! I will be buying more.

I bought this coloring book for my wife for Mother's Day this year and she seems to like it so far. She has already colored one page in it and says she looks forward to taking it on our annual family trip to Florida. It will not only help her relax, but will give her something to do on the 16 hour drive down. The pages seem to be thick enough that the coloring doesn't bleed through to the other side with the use of proper pencils and crayons. The artwork is quite extensive and leaves plenty of room for imagination when it comes to coloring and filling in the blank space with creativity and imagination. The only downside I can see to the book so far, is the fact that it seems a little thinner than I would have imagined. I wish it had more content to it and was a larger book. Hence the 4 stars, instead of the full 5 star review. My children also seemed to like the book, and have already asked if they could color in it. This means we will be looking for a nice child one here soon and will review it accordingly as well. I would buy this book again and would also recommend it to a friend.

My mom has always loved art, and never really got around to doing as much with it as she talked about wanting to. The book made a great gift and she really enjoyed it (and actually used it). That said, I'm not sure what your mom is like, but an art book with wildflowers, dragonflies, butterflies, and bumblebees on the cover is perhaps the most "my mom" thing I could possibly imagine.

Bought this for my mom, of course, and she has now joined the dark side of we adults who love to color. She loves it so much she called me evil because she'll start coloring and the next thing she knows an hour or so has passed by. I told her that's exactly what coloring should be, your zen for

the day. She has really enjoyed this book as a starter and I have no doubt she'll stick with the fun.

Got this for my mother in law and she loves it. She told me she finished the entire book in 5 days. Everyone likes to color or I hope they do so adult coloring books like this are perfect for your inner child. Well made product at a great price. Can't go wrong with this as a gift for the mom in your life who loves to be artistic through coloring books.

This was a great product to get my mom for Mother's Day! She has had a lot of stress in her life so she began doing these adult coloring books to try to help with her stress and relaxing herself. My only complaint is that the pictures aren't very hard or creative compared to other adult coloring books but I liked that it was personalized to mom for Mother's Day.
