Author Patti Polk is recognized as one of the top agate collectors in the world (as noted in the highly respected reference book *Agates III* by Johann Zenz). She has been collecting, cutting and polishing rocks for jewelry and display for more than 20 years. She has been published in *Rock & Gem* magazine and numerous other periodicals; she speaks at rock and mineral club programs and frequently serves as a trail guide for visitors to Arizona. Patti is a skilled lapidary artist, which includes the cutting and polishing of the stones into display specimens or cabochons for jewelry making. She also designs and creates fine silver jewelry with the gemstones. She continues to study the earth sciences to keep abreast of any new findings, and to further her knowledge of rocks

and minerals in general.

This product with the tumbler, rough stones, magnifying glass and polishing grit will help my Grandkids expand into understanding lapidary work, precious metal smithing for jewelry and Geology. They may even learn some Geography and know where other countries are. Imagine that.

Great book for local rock collecting!

Great book for a beginner, perfect for granddaughter

Very helpful and informative.

This was a gift for my brother who is interested in lapidary matters. He says this is a very useful book for someone just getting started..Gave him this one and 'Gemstone Tumbling, Cutting, Drilling, & ...: Good combo.

Informative

Great pictures and some info. It meets my needs. I loaned it to a neighbor friend already!

Informative book with great photos, just what I wanted!
