National Building Cost Manual 2015

Synopsis

Square-foot costs for residential, commercial, industrial, military, schools, greenhouses, manufactured homes, fire stations, libraries, churches, government offices and farm buildings. Includes important variables that can make any building unique from a cost standpoint. Quickly work up a reliable budget estimate based on actual materials and design features, class of construction, area, shape, wall height, number of floors, and support requirements. Includes easy-to-use software that calculates total in-place cost estimates. Use the regional cost adjustment factors provided to tailor the estimate to any jobsite in the U.S.

Product Dimensions: 10.7 x 8.4 x 0.7 inches

Shipping Weight: 1.4 pounds (View shipping rates and policies)

Average Customer Review: 4.3 out of 5 stars 3 customer reviews

Best Sellers Rank: #848,780 in Books (See Top 100 in Books) #104 in Books > Crafts, Hobbies & Home > Home Improvement & Design > How-to & Home Improvements > Estimating #128 in Books > Crafts, Hobbies & Home > Home Improvement & Design > How-to & Home Improvements > Contracting #2543 in Books > Engineering & Transportation > Engineering > Construction

Customer Reviews

As a real estate appraiser, I was hoping it would be a little more detailed as it relates to illustrations of building components. For the cost of the book, it's not a bad resource. It provides a decent rule of thumb cost estimation, but a much better resource which I now subscribe to is Marshall Valuation Service.

I use this thing everyday on my job and I prefer it to Marshall & Swift.

Now if we can just get them to put out a reasonably priced Agri only book....
