Customer Reviews

I'm about 1/2 way through. It's very basic, just what I need as a beginner. The audio downloads are helpful, but instructions for getting them are not very explicit. There's a URL on the front page, but there are no instructions. All in all I'm happy.

It needs to be more basic as in never played before no knowledge of playing. I'm still struggling to understand and I long to play my lap steel guitar.

ok so the book itself is fine, but i have not been able to get the online audio that is supposed to accompany the book. if you do not know what a thing is supposed to sound like then you can't replicate that sound.

very easy follow

Bought for Christmas present for husband. He is anxious to use it.

Not worth the money
