Anthony Curcio spent five years in prison. During this time he wrote and illustrated several books for his young daughters. This is one of them. He now uses his story to help others by speaking to students, inmates, correctional officers, law enforcement officials and judges. Anthony has a B.A. in Social Sciences from Washington State University and lives in Seattle with his wife and two daughters. For more information please visit: www.acurcio.com

As a retired teacher, I know firsthand that there are subjects that are often taboo or passed over in a classroom. Children often talk amongst themselves and other children are singled out or avoided. I also have seen firsthand children who have been in the middle of family battles, courtroom matters and incarceration matters. In the majority of these situations, the child or children is confused,

frightened and in many cases will blame him or herself. This is a wonderful book for children who have family members who are incarcerated. I highly recommend this book

Cute Book, Awesome Illustrations. However, there's so much going on in the book it's kind of hard to follow. The names are weird and I feel like it's so busy, that it takes away from the message. This is the only book I was able to find geared for children when a parent is in Jail. We are a white, middle class working family from Maine with a stepdad in jail for an OUI charge. My sons loved finding the little guy hidden on every page of the book! Overall, I recommend this book. God Bless!

I was looking for a clear and simple message but this book goes in a lot of different directions and is hard to follow. Love this topic since it impacts so many kids. A little disappointed.

This book is very busy, but good. I think for some students it may be overwhelming. It is a great asset in my collection for helping children.

This is the most sincere and from the heart children's book. Cute illustrations.

Absolutely loved the illustrations and the message in this story. Being a sponsor to two children with their father in jail, I was looking for a book that they could share with their friends to help them with telling their story and this was the perfect choice. The author also kept the children engaged with this book with the search and find! 5 stars, well done!

My kids were interested in the police and what jail was. This was a good book to give them an idea of what that world is like, without freaking them out. The illustrations are top notch

Wonderfully illustrated and creatively written, which engages the attention of children and parents alike.
