ISBN-13: 978-0811724111

Product Dimensions: 9 x 5.9 x 0.8 inches

Shipping Weight: 12.3 ounces

Average Customer Review: 4.5 out of 5 stars 17 customer reviews

Best Sellers Rank: #179,132 in Books (See Top 100 in Books) #23 in [Books > Sports & Outdoors > Individual Sports > Archery](#) #161 in [Books > Sports & Outdoors > Miscellaneous > Reference](#) #370 in [Books > Sports & Outdoors > Hunting & Fishing](#)

Customer Reviews

Larry Wise is a Stackpole Books author.

I purchased this book for my 11 year-old grandson; he AND his Dad have been thoroughly enjoying this very detailed and well-done book on archery. I would say this book is for the serious archer.

Item arrived as described, thanks.

Good reference.

If you are a beginner or an expert you need to read everything Larry Wise has written. I have taken lessons from him personally in Back Tension and read all his books. Larry is a retired math teacher and knows how to structure archery in a logical method conducive to learning. He also can tune and fit yor bow so that you can focus on technique and not worry if the equipment is at fault.I am a certified instructor and Larry is someone I would go to to improve my own shooting technique.

It's a good book. Has everything I was looking for. I do not have ten words to write. Don't force people to write commits

Bow and Arrow is one of the best Archery tech manuals I have read. Beginners wanting to know more about the technical side of the recurve or compound should pick up this book. Lots of good info on arrow setup and tuning too. Nice!!!

I purchased the book expecting Mr. Wise to provide specific direction on equipment comparison and equipment selection. Did not happen. The book provides, for the most part, a high gloss narrative / review of equipment and technique. The book closes with a 78 page reprint of the Constitution of the National Archery Association and by-laws of the International Bow Hunting Organization which are of no value to me.

Old and now largely outdated, but a gem all the same.
