Synopsis

How to Achieve Peace, Purpose, and Plenty Without Getting in Your Own Way
Manifesting Miracles and Money is an opportunity for all of us to rise up and unite for peaceful co-existence, harmony, great abundance, and evolutionary advancement. In this book you will learn exactly what has been holding you back. You will discover the thoughts and belief systems which make you stuck and therefore inhibit all of humanity, for we are all connected. Reading this book means that you already understand that we are one Spirit expressing as various creative souls, and as such, you comprehend the Law of Attraction and how to manifest. And yet, we take manifestation a step further, igniting the reader to manifest daily so as to give more to others. It is in this giving that we create movement in our own abundance, as it is a part of the Law of circulation. The Power of 10 are a group of wise, funny, engaging teacher spirits who have chosen not to come back to another lifetime of learning lessons the hard way through suffering. They point to a different path to success in life, one where we may release our addiction to suffering and now learn through trust and faith. When we do choose to leave this body, we can be assured that there are literally billions of dimensions we may travel to, and that this is an entry-level existence to so much more! Learn How to Manifest Abundance Our souls are indeed eternal. This we already know. And so, there is no death. In fact, there are no laws or boundaries other than our own self-inflicted ideas of how reality should work. Find your own unique path toward joy, give freely to others so everyone may have their basic needs met, and we can create a higher existence for all, where violence becomes a part of our past and abundance, health, and well-being become the norm. Move Past Resistance This book comes at a time of great upheaval, where our political systems world-wide are breaking down and people and nations are at war with one another. The irony of this is that it is an illusion, a game we created to further us on our evolutionary path forward, knowing that we are part of a fast, forward-moving Universe that seeks to create and grow consciously and continually. Resistance to this forward-moving growth creates suffering. Moving with this flow creates opportunities and adventures beyond our current dreams. Rise, simply by stating the powerful word rise, and learn many other tools on this epic journey toward peace and plenty. Prosper Together Align with the frequency of what you want, and it is yours. Join with another's vision to assist their creation, and you've doubled the fun! Radiate your inner peace and joy, and now you are advancing humanity forward. Customer Reviews

I was drawn to read this work, yes I know there is much more going on than that, definitely the right message, right time. What I love most is the offering of simple techniques that are so powerful, easy to remember to do daily and make me feel good. Interesting hearing what is beyond, if you are receptive to channeled material this is an awesome find.

I first read a rough draft of Michelle's book and then the ebook. This is a book that will change your thinking! It will change your life by showing you how to manifest what your heart desires and how to envision world peace. These 10 souls who come through Michelle are funny, inspirational, and full of love and peace! I am blessed to be able to hear them in person at The Power of 10 events! If you are ever in the area, join us! You will walk away a better and different person!

Michelle Reed is a Medium and allows her body to be used as a vehicle to share good news with

the rest of the world. Michelle opens herself to a group of 10 souls who have united to move the world forward. They are non-physical energies who have decided to step beyond the life and death cycle, beyond your ideas of heaven, into the space beyond. This collectiveness of 10 souls have previously lived life on Earth many times as we are doing right now. They understand our hardships and have ideas for us to lessen our burdens. “Whenever you wish to raise your energy level, simply recite the word RISE 10 times aloud. It may feel like your body tingles. There are other ways to raise your vibrational energies, such as going for a walk outside, listening to music, looking into the eyes of a loving and caring partner, pretending to remove a mask from your face, unzipping your abdominal cavity and allowing the spiritual self to be free. All of the techniques and more are discussed in the book. Love is who you are, not what you feel. All of us are Love. God is Love. We are made in God’s image. You are here (on earth) to achieve this state of being in the moment, connecting with the Great What Is, and moving on a trajectory to alternate dimensions of bliss and peace. I could not read this book in just a couple of settings. The knowledge and information is too much to be absorbed at once. I would suggest other books on meditation, reincarnation, and mediumship to help focus on some parts of the book better. I can understand Michelle’s eagerness, her tiredness, and her hesitations with this project. I’m thankful for her courage. May she get her strength from God, our Almighty Father, and continue to be guided by the spirit world. I feel blessed to have this book in my possession. There are many others who will feel the same. The book is filled with many ideas to challenge my current beliefs.

There are a number of books on the Laws of Attraction and manifestation from varying points of view. This new entry from author Michelle Paisley Reed is a guide based on her interactions with spirit entities. This book does cover many of the topics of manifestation, with each chapter ending with transcripts of interviews with the guides. There is some good information contained in the chapters, but for me the interviews were a bit long since most of these sections are question and answer sessions regarding various topics. Manifestation books are deeply personal books and the reader must take the information and find a way to apply it in their own personal life should they choose to do so. This is an uplifting book that covers a wide range of topics, which can be somewhat confusing if you are new to the subject. The reader will need to determine this for themselves, since this makes it a difficult book to review. There is a great deal of information presented that the reader will need to digest. The author has set up a website to accommodate the books, along with audiobooks to help guide the reader. It’s a bit complex for me personally.

The first part of the name, "Manifesting Miracles" is very descriptive of the material, but "and Money", although you can use the advice in the book to easily manifest money and other things, it is an understatement to me genuinely. The most powerful thing about this book is that miracles are what we genuinely create, not "what happens luckily to us" as a concept. It is better than reading Frank Gonsalus's "What I Would Do With A Million Dollars" Sermon again or the first time I read Russell Conwell's "Acres of Diamonds", only without the tragedy of the farmer who lost himself and wasted his apparent potential looking everywhere else for diamonds except for where he was. I especially like the concept of the "10 spirits" that evolved from other dimensions to help us here. I just got bowled over by it, I thought of my guardian angels also that give me advice asleep and awake, in that order. Over all, it is a beautiful book worth reading, and good for more than just food for thought, it is food for the genuine spirit.

Not too long after I embarked on a path of spiritual growth, I was fortunate enough to discover Lee Carroll's work in channeling Kryon, and then perhaps a decade later encountered the teachings of Abraham from Esther & Jerry Hicks, work which also has helped me a lot on my path of self-discovery. For many years, both of these teachers have been a key spiritual growth resource for me, and now I can add Michelle Paisley Reed's work in channeling The Power of 10 to my spirituality toolbox. Bottom line, I really liked this book a lot, as it contains numerous insights that I believe rival the value provided by the Kryon writings and the Abraham content. I look forward to reading other books from this author, and without question I highly recommend this initial book by Michelle Paisley Reed.
