Customer Reviews

My 8 year old absolutely loves this whole series. I am frustrated because she bought this book at her book fair after I had purchased it for her for Christmas. It isn't worth returning. Guess it will be a birthday present! LOL I will have to say, she is an advanced reader. I can't guarantee that all 8 year olds can read the book with ease. I am not a teacher and know nothing about reading levels. I just know all her teachers tell me she is advanced. This might be great for that age or it could be too hard. All I know is the content is interesting to my 8 year old daughter. She will read almost anything, but this is one of her favorites. She reads these books multiple times.

Great book! My daughter loved the twist on the Snow White story. In act, she loved it so much she convinced her teacher to read it to her first grade class, and all of her classmates fell in love with the

series as well. It appears to be marketed to girls, but Abby's brother Jonah is a central character as well, and their adventures appeal to both girls and boys. Highly recommend this book -- and the series -- for elementary school aged kids.

This series of books keeps our daughter reading all the time. She says they are funny and very interesting.

This was a very good book that is a twist on sleeping beauty. This is not one of my favorite whatever afters but the end gets really exciting. If you haven't read the first and third ones you really should. They are the best ones in my opinion. I bet Bad Hair day (the fifth book) will be just as good as the first and third . - G.c.

This book is a great book that takes you back into your childhood dreams. Your children will love this book. With all the adventures Abby and Jonah take it will seem like you are there too! I'm sure you and your children will love this book. And don't forget to read the rest!

Item severely ripped when received

I read this series to my 6 year old son at bedtime...the trouble is that he can't fall asleep when I read them because he gets so wrapped up in the stories. The books are wonderfully written and have great adventure.

We love these books at my house and this one is adorable. Read it if only for the hilarious little brother Felix and the sweet twist at the end of this fractured fairy tale.
