Noted nutrition text author Karen Drummond teams with Joan D'Amico to help you eat and cook your way across the country. The journey begins in New England, travels down the coast to the Mid Atlantic and the South, traverses the Mid- and Southwest, crosses the Rockies and finishes on the Pacific Coast. I am working with my 4-year-old son to teach him the states, and I think this book is going to be fun and helpful. The recipes all look like things our family would like (nothing really weird), and they are simple enough that he can help me cook. The facts and trivia about each state also make it more interesting. I recommend this book for anyone (child or adult) who wants to learn more about the states AND get a fun culinary experience to go with it!

We love the recipes in this cookbook! My picky eaters will eat the vast majority of the recipes which is amazing!!! I was going to research a recipe for each state but this book saved me a lot of effort. :)

This book gives recipes and facts about the United States. Children can learn to cook regional dishes and learn something about the places where the recipes came from. Linking place and food, gives the reader a sense of what grows where, a connection that is largely lost in the supermarket and processed food.

We love this cookbook, and learning about the states at the same time. Great cookbook for kids.

Super cute, lots of interesting content. Perfect addition to our US Geography Homeschool program

Kid friendly, and I love the introductory section detailing cooking tools. Most of the recipes can be altered to accommodate the food allergies that we have in our family. Very fun for the family to do together.

My son loves this book. We've only tried a few recipes so far, but have added plenty to our list of 'must tries'. It's neat to see the regionally special recipes for each state too.

A gift for U.S. travelers who also cook and love to try new cuisines, this was much appreciated.
