Customer Reviews

This book was perfect, new and had the code for the online extra stuff, so I'm very happy with my purchase! Thank you!

the standard in paramedic instruction I have had a copy from the 3ed to present editions

This book is among the best for information to paramedic information and course work, highly recommended. The company that I purchased it from however, is an absolute horrible choice (tialap), the book was delivered at almost 200\$, with heavy damage to the corner that appeared to be either water damage and being dropped, or an animal chewing on the book. The book is a great book, but the damage that was on the book was a reflection of a poorly inept company that is represented only by blemishes themselves. Get the book, but not through tialap, who also has not responded to my demand for a return. Paramedics lead the way!

MY DAUGHTER LOVED RECEIVING THESE, JUST PERFECT FOR HER TRAINING CLASSES

My daughter is deep into this book for her class. Price was right.

Came brand new in the plastic, and the code worked! It was about 1/3 of the cost of I would have purchased from the bookstore

quite a complete book, I've been using it for the past month or so, a bit of trouble w/JB Learning online material though

Best paramedic book out there. Wonder price too. Book came as described. It was shrink wrapped with both books in the set PLUS the online supplement code. Highly recommended.
