I found all my grandmother's Hull vases and their value. Very helpful

Great book that lists all products and pricing. Pictures are both older "production" pictures and newer pictures to help identify colors better. Informative and helpful tool to have in collecting

I never get tired looking at these pictures. I collect but they also bring back memories. It reminds me of some of the things from my grandparents house...

Great addition to my resource library for Hull Pottery. Must have if you are thinking about collection Hull Pottery and a must have if you will be sell Hull Pottery.

This is a clear and colorful resource to anyone interested in Hull Pottery. Information regarding each style of pottery produced is presented with a "snapshot" description and multiple photographs. Reproductions of old Hull advertising compliment each chapter. The information on prices is invaluable. Great to take to estate auctions, flea markets, garage sales and thrift stores to find Hull treasures!

LOVE this book. I go to a great deal of yard sales and auctions. This book has really helped in ID'ing fakes and reproductions. It has also helped me in picking up a great deal. I have since bought more books of this type. The first item bought usually pays for the cost of the guide.
