Age Range: 1 - 3 years

Grade Level: Preschool and up

## Customer Reviews

Praise for Besos for Baby: A Texas Library Association 2x2 Reading List Selection "Each two-page spread features a bouncy rhyme in English followed by the perky Spanish refrain. Gomez's cute and blocky illustrations in cheery colors clearly depict each character, and a picture glossary at the end defines each Spanish word. Little ones will be delighted by the happy faces and affectionate world little bebé explores." —Booklist

This is a cute, well illustrated board book for babies. The colors and illustrations are nice and it teaches a few Spanish words, but it's not the most exciting book and there was less Spanish than I expected. There isn't really a narrative; it's just different kisses from Mommy, Daddy, the dog, the wind, etc. There is a little phrase in English ("Mommy loves kisses, sweet as can be.") and then the following page includes the Spanish for kisses and the Spanish of whoever is doing the kisses ("Besos, Mami, besos.") Every page follows that pattern, but doesn't connect with or move a story

from the following pages. I was disappointed by how little Spanish there was; with 10 kissers plus the word for kiss, there are only 11 Spanish words in here. I was hoping for something that would be a little more bilingual. Still, the repetition and rhythm is nice and the baby (4 months) really enjoys listening to it. Because there isn't really a story, I suspect it won't be as captivating once he's a little older, but we'll see.

I think this book is very cute. Especially for our bilingual household. Some of the wording is a little weird but overall it is cute. Most importantly my 18 month old likes it!

Cute book for the little ones

Such a cute simple book. Great for easing in spanish to a child's language.

Looking for a gift for a new baby? This item fits the bill for those who wish to raise affectionate and culturally diverse children. This book will grow an infant to the toddler stage when the toddler can turn the memorized pages. The illustrations are bright and meaningful even to the smaller children. Who would not want to add a little love into a child's life?

Like other reviews said not a lot of spanish. but cute and well illustrated. our baby enjoys the pictures and the print will be easy for him to read when he can.

The only thing in Spanish is the title

This book is absolutely adorable. My 9 month old squeals with excitement if I even just say the title out loud. He loves the illustrations and I love that it's in English and Spanish throughout the book.
