This exceptional board-book tells a beautiful and timeless story about a daughter's attempt to find the limit of her mother's love. Barbara Lavalée's exquisite illustrations of Alaska, with their exaggeratedly foreshortened perspective and rich tones of violet, blue-gray, and gray-green, tell of an easy declaration ("I love you more than the raven loves his treasure, more than the dog loves his tail, more than the whale loves his spout") that is pushed, and pushed, and ("What if I put salmon in your parka ... and ermine in your mukluks?") pushed. There's a quiet joyfulness in both the antics of the Inuit mother and daughter and in the animals--including a polar bear and a musk ox--that the daughter imagines she might become. A charming story for mothers and daughters of all ages. (Baby to preschool) --Richard Farr

A decade ago, PW called Barbara Joosse's *Mama, Do You Love Me?*, illus. by Barbara Lavalée, "a striking volume which uses a timeless culture to convey a timeless message." Chronicle celebrates the book's success with a 10th anniversary commemorative edition that includes a fabric jacket and a limited edition print of mother and child. This is my go-to book for babies. I give the board book to three and under; the regular book over three. There's a glossary in the larger book. It's an introduction to First Peoples' culture, and I think it gives children a secure feeling. The reviewers who worry that some parts of the story are vivid and scary can relax. Kids who haven't been overprotected love that stuff. And besides, some kids are afraid of clowns.

I received this book yesterday. Very fast shipping on a prime subscription. This book is a board book, i immediately red it to my daughter, she loved it and i loved it, not just the quality of the book but the story is such a beautiful story of a mother who will love her daughter unconditionally no matter what. Its a great gift but also great to keep it for your self and for your daughter. I highly recommend this book.

Love this story, because it not only deals with love, but also with kids that can act in different, not so lovable, ways - Message: mom will love you, even if she is also angry with you, even if you make her sad sometimes with your action, etc. Great book. My daughter (2.5) loves it and so do I

I bought this book for a soon-to-be-mama at a baby shower that I attended. I got her this book because when my son was little he had this book and loved the story. It was one of his favorites, and we had many mama and son times reading together. Just like the book shows....children do all sorts of mischievous things, but still need to know they are loved no matter what. A great book for your child's library!

This was one of the books I read to my son over and over when he was a little boy. The phrase "still I would love you" entered the family lexicon. The beautiful illustrations make the book a real standout as well. I bought this copy of the book for a young friend who is expecting her first child. I hope the book will be as loved by them as it has been by my family.

My siblings and I loved this book growing up. I knew I had to find a copy for my son. So glad I had it, and even better a board book version!!* If you love this book you should check out "Love You Forever"

This book is so beautifully done. I cried by the end about the first 100 times.

A favorite. Lots of fun illustrations. A little some scary for sensitive type, such as mom gets chased by a hungry polar bear into the tent. Lol. But it's only the daughter dressed in the furs, but illustration can be off putting. My son always screams no bear no bear! On that page.
