The New Potty (Little Critter) (Look-Look)

Synopsis

Mercer Mayer's *Little Critter* is dealing with his little sister learning to use the potty in this classic, funny, and heartwarming book. Whether he's trying to help her make it to the bathroom, encouraging her when she does well, or getting frustrated when she doesn't, both parents and children alike will relate to this beloved story. A perfect way to teach children about potty training and how to be a good older sibling!

Grade Level: Preschool - Kindergarten

Customer Reviews

Little Critter sure knows how to be a good big brother! He even helps his little sister learn how to use the new potty.

MERCER MAYER began writing and illustrating children's books in 1966, and since then, he has published over 300 titles. Readers can open almost any of his award-winning books and out may pop dragons, cuddly monsters, wonderful creatures, and endearing critters. Drawing from his own childhood adventures for inspiration, Mayer created one of children's books most cherished characters, Little Critter. He currently lives in Connecticut.

My daughter likes Little Critter books so I ordered this book when we started potty training. She liked it, but there isn't really any helpful information for a two year old learning to potty train.

While in the throws of potty training, I figured books might be a good start to get us talking about going on the toilet with our 2 year old. This book is cute, but doesn't really go into the "business" of potty training, meaning the book doesn't really teach you anything about potty training. My 2 year old has little interest in reading this book and to be honest, I don't either. We picked four potty training books total and this is probably his least favorite. That being said, the story itself is cute and the critters are always funny, the illustrations are cute too.

My son is one of the biggest Little Critter fans and often wants to do things just like him, so upon realizing this and experiencing trouble with him wanting to start potty training, I decided to get him this book. Voila! This book and some promises of new Hot Wheels got things rolling for sure! Now just getting him to remember to do number 2 in the toilet and not his underwear is the problem... A little help, Mercer Mayer?

My son loves this book! It took a little longer than expected to receive it, but the price was worth it!

I bought this book for my 2-year-old daughter as soon as we started potty training her. she absolutely loved it she even brought it with her into the bathroom when she had to make a number 2! We would read it, and it would help her relax. She would reference the story anytime she successfully went to the bathroom on the toilet. I highly recommend getting this book for any little girl that might be ready to start potty training. it has bright colorful pictures and an enjoyable storyline!

This is one of my sons new favorite books! We read it at least once a day before bedtime!

My toddler loves this book so much! I wish the binding was a little sturdier though.

I have read the "little critter" books to many children over the years and I come back to these books time and time again. I was introduced to these books when I was a nanny in the late 1980 and now I have a 3 year old great nephew who enjoys the books as much as I do. Excellent for young children!
