Customer Reviews

Great, now I know all the penalties and what numbers are for which position. ~~~~~ thank you for writing the book.

Son liked it. Was simple enough for a 13 year old to understand and read in a few days.

Since even I am learning football thanks to this book,I think that that alone earns it four stars!Highly recommend this to all those folks out there trying to learn football just so they can communicate with all the football fanatics out there. :-)

This book is terrific for anyone needing basics on football. I have a much better understanding of the game as a whole and the individual player positions. A well written book.

I needed to read this book, because without certain details, I was not totally enjoying certain aspects of the game

I now feel like I can join in on the conversations while the Texans or Saints are playing. Before I read this book I was too embarrassed that I would say something stupid. Now I know an awful lot about the game. Well worth the read if you really want to know how football works.

Not bad for a 'dummie' book. Helpful in my understanding and enjoyment of the game.

Very informative on all divisions of the game of football wish more on offensive level and less about the coaching unless your a coach?!?!
