Customer Reviews

There is so much wisdom in this CD that I hope you have a notebook handy to write down some of the high pointsA lot of times a recording will start out strong and then get to repeating points already made. Not so here. It keeps giving good ideas to the very end. You don't even have to be into networking to gain insight from him. It will help you no matter what you do for a living.

This CD is an excellent source for being introduced to Jim Rohn and if listened to several times, it is one of the most encouraging resource for beginning a network marketing business. But, it does not teach skills such as the packaging claims, it only introduces the listener to the importance of acquiring the skills of recruiting; getting people to work together, how to use ingenuity (like how is that taught in one CD being listened to); strengthening communication techniques and how to inspire people. No, the importance of these skills are outlined but not taught. One has to go elsewhere for the knowledge of the skills needed to build a network marketing business.

This guy is easy to listen to and smooth in his presentation. Glad I have this CD. Listened twice in

the car today.

Worth the money --- all the way... I buy it as a gift for my team when they get their first rank advancement.

Hear a great message from a motivational master!! Learn and apply the techniques in the audio and live a better life.

Wonderful combination of Jim Rohn message. I have never been disappointed listening or reading his material. It is a must for anyone who would like to better their life and business. It works for me.

A must have for everyone building their own business

Very good to listen to in the car - over and over again! John Rohn is the expert - he has the experience and longevity to know what he's talking about. Having been in direct sales / network marketing business for some time, I found this information very true to the way success in this industry is. This will be a staple listening tool, for sure.
