Moonlit Harem: Part 2

Synopsis

Since being turned I've been taught that shifters were the enemy. Now I've switched sides. I was shocked when I found myself alive after waking up in a werewolf cave after escaping my coven. Lucky for me, they believed my story and took pity on a vegan vampire. Now, all I have to do is find a way to take out the vamps and save humanity. No small feat when I'm surrounded by sexy shifters who insist on walking around naked all the time. Moonlit Harem is a paranormal romance reverse harem serial. Each episode is approximately 20k words. All episodes will be released as an omnibus when complete.

Customer Reviews

Part 2 of the Moonlit serial and it is really good. I like the world that is being created, but I would have liked to know more about Riley's relationship with the wolves. We didn't get much time to get to know Riley's relationship with them. I like all the male love interests but we have yet to get a lot of background on them, which I am hoping we do in the next part! I am really loving Moonlit Harem and can't wait to read more!

Moonlit Harem 2 continues the story of our favorite vegan vampire Riley. She has been taken in by the local werewolf pack and has made a real connection with 3 of the were's; pack leader Zane, council member Leo, and Forrest. She is coming to terms with her diet, trying to accept the ways of her new pack and let go of her coven teachings. It's an emotional time, but made much easier with the attentions of her three. It's not all sexy times with her three though; Riley confesses the reason she ran. The Centennial de Sang, the vampire ceremony sacrificing 100 humans. It's decided that the werewolves will attempt to intervene. Now if they can only carry out their mission and manage to stay alive. Fun, fast read. Ends with an excruciating cliffhanger guaranteed to make you eager for the next installment.

Ugh. Pre-Purchased because I wanted book two and this way I would automatically get my book. Purchased and it totally not worth it. Don't like these stories and the 100 or less pages you get, and then a month later another section comes out. They feel so fast and sketchy, story is thin and the interactions between character is shallow. No depth or value to the development of the people you read about.

The second part of this series is just as awesome as the first part!! Our vegan vampy heroine has run away from her coven and still refuses to drink from a human, choosing to drink from small animals. She has run right into the wolfs den, but the wolves are at war with the fangs, what will happen to our beave heroine? Well written with romance excitement and danger, I am loving this series and love NM Howells writing, I highly recommend this book

This is the second book in a RH series about Riley, a vampire who refused to kill. This is a good continuation from the first book and I like that we start to see a bit of a stronger side to Riley. The ending is a great cliffhanger and makes you wish the next book was out already. I can't wait to see what happens next...and I hope that we see Riley grow stronger and more assertive along with her guys supporting her. Can't wait for the next book!

The story continues with Riley waking up in the enemy wolf den. She forms a bond with Zane the alpha, Forrest and Leroy. Oh what a ending, I can't wait to see what happens! Exciting with likeable characters, I wish it was longer so you could get more background on the characters. I voluntarily reviewed this ARC book.

We pick up right where we left off, a vampire seeking sanctuary in a werewolf den. Suspicious at first, the wolves seem to be taking to Riley, some are really taking to her. I like the build of these new relationships and where the story is going. That ending, holy cow. Can't wait for the next one!!

Okay but not great, though the concept is cool. There isn't enough detail in any aspect to round this out into a fully realized story. Reads more like a first draft to me--not because of grammar, but because the setting, characters, and plot all lacked the depth.
