Great book. Purchased this for my best friend's daughter for her Golden Books collection and she loved it. Great condition .

Got this to include in a gift basket I'm putting together for my daughter and her friend before going to see Beauty & the Beast. Hoping this gift pack will keep them from wanting to buy the \$95 toys they sell inside the venue.

Simple Golden Book, true to the plot and easy to read to the kids. The new movie scared one of the little ones and she enjoyed showing us where in the book the scary part happened. Seemed to enjoy the book more than the movie lol.

Beauty and the Beast has always been one of my favorite Disney stories. The movie came out when I was a kid and it's since always held a special place in my heart. I'm thrilled that my daughter has developed a love for reading and she absolutely adores the story of Belle and the enchanted castle. There is a lot packed in to this Little Golden Book!! Often these books are very abridged versions of the story to fit the length and size of the book. This one packs a thorough telling of the story into this Little Golden treasure! Because of this, I wouldn't at all classify this is a beginning reader book. This is a full story with multiple paragraphs per page. My 5 year old loves the story but is nowhere close to being able to read this one herself. I'd say a second or third grader could enjoy reading this one solo. Possibly even a little older. Golden Books are always high quality and well produced, and this one is no different. The illustrations are bright and visually appealing and follow along with scenes from the movie. I'd recommend adding this book to your collection if you have a princess fan, Disney lover, or overall lover of good stories.

I had to order this book after my 3 year old became obsessed with the Beauty and the Beast movie. While this like all Little Golden Books is very well illustrated, the illustrations are from the actual movie. But the story line is a very abbreviated version of the movie. I am not sure is it would make a lot of sense if the reader has not seen the movie. It is a short story and great to read before bed or during the day. It is short enough to keep my 3 years old attention. I would recommend this book for any child who loves the movie or to be introduced to the movie.

Disney books are always fun. Can't go wrong with this story!

it is a Disney Golden Book, you love it or you don't....

niece loves her books!
