LA Gran Aventura De Alejandro

Had to read this book for Spanish class and was not very interesting. For me this book was hard to understand especially with only 1 year of Spanish language experience. Fast shipping. No issues.

You know, about half-way through this book, I realized that I don't understand spanish. But I plowed through it with a determined, but nevertheless naive effort.

Good.

It is a good book to improve the grammar for advanced students, and at the same time to gain some culture about Spain.

The book had writting in it and had rusty corners but other than that, it was fine. Also more than one person has used it

Last summer--good work.

Paid less than a dollar for "Acceptable" condition and was really surprised at the quality. It was like new! No marks, tears, or highlights to be found, just slight signs of wear. Arrived a week late :(

It was an interesting story... Thanks Spanish class for introducing me to this story... without it I wouldn't have had picked this book up and learned about Spanish history...
