## Customer Reviews

was disappointed. that i was buying a BOOK and it's more like a pamphlet... perhaps i didn't read the ad well enough.

As an owner of multiple retail outlets, this book helped me understand where each employee was in the pyramid. Knowing and understanding has helped me retain my employees by knowing what they need. This information is proving invaluable. In the past I would give them pay increases and still have them leave. Today I give more responsibility, autonomy and recognition, both public and private. Wow what a difference. People seek us out and want to work in our company.

Is not what I expected

Thin. Very basic explanation as relates to marketing. Wish I would have listened to the other reviewer.

Not wv n close to what I was expecting. Small booklet, misleading and I believe I got ripped off. \$9.99 for nothing. Will be much more careful when purchasing from . Think that the discription of what I bought could have been written better. The back cover of this tiny booklet says this book will help you: Understand the needs o your target and products to satisfy them. Really I just wanted to know about Maslow's Hierarchy Of Needs. Would not recommend.

This book contains a quick explanation of Maslow's hierarchy of needs. It is mildly informative offering a few insights to the concepts.

I couldn't figure out if I really needed this after staring at the chart for a few minutes. Ok, it was more like three hours. Then I ate a sandwich because I was confused and not really hungry and the chart was no help with why I did that either. Why do I do stuff? Are they needs or am I just a selfish, lazy slob? It's probably a great chart if you're Sigmund freaking Freud or Bob Eubanks. Those guys know about needs. Who wants pudding?

I'm not clear on this. In terms of karma this formula doesn't work. Interesting theory however In don't buy it.
