It would have been nice if the pages are made with better quality paper. My book came with some ripped pages including the front cover. Now I will have to return it because I know grandma will not be happy with this. I thought the cover will be a hardcover type of book, but it's just a cardboard type of paper so yeah, it's partially ripped off from the spiral ring. Otherwise, would have been a good book for grandmas to write on because it has ample space on each pages of questions, one to do each day.

This is so wonderful; I gave the Daddy, Tell me.... Version to my dad who passed away a year ago and am SO GLAD. It is a fantastic way to tell/share your life with a beloved child. The day-by-day questions and suggestions are easy, thought-provoking and easily applied to a variety of backgrounds. It is a gift to a loved one.

I was at a loss as to what to buy as a Christmas gift for my grandparents who have everything and need nothing! This was perfect! The price was extremely reasonable. Both of my grandmothers loved this book. Just flipping through it they both read a couple pages and immediately began remembering stories from when they were younger. Not only will it be a great keepsake once filled out for myself and my children, but it brought back funny memories for my grandmothers and made them smile at the memories! I highly recommend this little book, and will be buying others in the future!

Great little book of questions. Now to see if the Grandma will fill it out! :) My own grandma filled out one of these and it is precious to me!

This book is amazing! We bought one for my grandma so she could fill it out for our daughter. 365 pages of questions you may have never thought to ask, but allow her to tell the story of her childhood and life with pictures and all the details. Such a fun gift. We are all excited to give it back to my daughter later.

This is a lovely concept and I wish I had one for my own grandmother. I purchased this for my husband's grandmother to pass along to her daughter (my mother in law) and so on and forth. It was well received and it didn't take long for everyone to get excited over the answers. It comes with questions for people to fill out, some of the questions were delightful and it was fun to reminisce but many did not pertain to the gift receiver. It would have been nice if instead of pre filled questions, it gave the option for the grandchildren to ask questions, making it a family event with memories that pertain to the person using the book. All in all I am very satisfied with my purchase and feel as if the book is beautifully printed and designed.

I wanted to give grandmother's journals to both of my daughter's grandmothers. However, since I couldn't preview these books in town (only 1 found in all of our local bookstores!) I bought 2 different ones so I could better compare them. I ordered this book and "Grandmother Remembers: A Written Heirloom". One of the reasons I liked "Grandma, Tell me your stories" is that it was one of the few that were a "question a day" format. I thought one a day would be easier to get in the habit of completing a grandma's journal since it would just be a little bit each day. I've heard some people who've bought versions that are not one a day say they often start, but have trouble completing them. I also like that it is small & spiral bound, because its easy to take with you & to turn pages.

Each page has a question & otherwise blank space to write responses. Lines can be limiting. However, the size of the pages in this book is also limiting. I think short pages are good if you are giving this to someone who may not like writing down the details, but if you're trying to get the "whole story" some of these pages will not have near enough room. If you want more of a full page journal I definitely recommend "Grandmother Remembers, a written heirloom" instead. (However, that book is not a question a day) RE: the questions. . . they are themed to the time of year (graduation questions in May, school memories in Sept/Oct, summer vacations in summer months) which is kind of neat. But, I agree with another reviewer that some of the questions are kind of strange & will not apply to everyone. Other questions are simply more yes/no rather than inspiring more reflection, which I'm not sure I like either. Overall, not a bad little journal if short & simple is what you want or if you definitely prefer the "one a day" questions. However, having bought both books, I think I definitely prefer "Grandmother remembers" instead.

I'm enjoying providing a glimpse into my life for my grandkids.
