## Customer Reviews

Good Music Tool !!!

You must be dedicated to your continued improvement in playing skills past the intermediate stage to conquer this book. It is a great piece of continued guidance, especially if you have a good, well trained and experienced professional to help get you through it. Remember, "Practice makes perfect".

I used to play the Rubank Advanced Method Book 1 duets when I was a kid. SO I bought the book for my own two boys, a 5th grade beginner/intermediate trumpeter and a 3rd grade trombonist. They were surprisingly open to baroque/classical music, which they had had very little exposure to prior to this. It is a joy to hear them hum one of these melodies absent-mindedly in some off moment.

What my daughter needed. Thank you

Rubank is a must have for any serious student learning the finer points of classical music. The methodology offers a solid base for anyone (or any age) to quickly learn the basics of the instrument.

This book provides music that is often used for students in competitions. It is not often easy to find. the price was reasonable and the delivery was timely.

Good

Very quick shipping. Exactly what we needed.
