Extremely poor editing on the part of the author removes a good deal of credibility and made this a very onerous read. Pass.

As of Oct 10, 2014, this is your title and headline: How To Become a Bitcoin Millionaire: 100+ Pages Of Bitcoin Success Everything You Need To No Everything we need to "no"? Seriously? Fail. If you can't even figure that out or catch and correct before you release it to the public, you have zero credibility. I definitely won't be buying anything from you if you can't make it out of the title section.
