# The Cuisines Of Germany: Regional Specialties And Traditional Home Cooking

## Synopsis

This impressive work will appeal to culinary historians and cooks alike. Food writer Scharfenberg has gathered together hundreds of Germany's traditional and regional specialties, prefacing each recipe with notes on the origin and cultural and culinary background of the dish. He has sought out little-known regional creations and resurrected unfairly forgotten dishes; there are contemporary versions of traditional favorites as well as classic renditions. Scharfenberg's readable style and sense of humor add to the appeal of the book.

## Book Information

Hardcover: 511 pages

Publisher: Poseidon Press (1989)

Good history to go along with the dishes and a wide range from different regions

Great cookbook exploring the fascinating older, traditional regional recipes of Germany. Goes far,

far beyond bratwurst and sauerkraut. My 80 year old German mother found an old recipe her Grandmother used to make. It's not a dry cookbook either, there is just the right amount of anecdotes and background. Don't expect glossy photos though, just the occasional black and white drawing.

I recently bought this book after getting it from the library. Every recipe I have made worked beautifully, the book is clear, nicely formatted and has interesting descriptions of the regions. Also illustrated with gorgeous woodcuts! I wish more of Mr. Scharfenberg's books were available in English.

This book deserves a reprint. The author and his translator have done a superb job of capturing both the haute cuisine and the more humble home cooking of Germany. The book is exceptionally well organized and accessible. Originally published in 1980 by Hallwag in German, it appeared in a limited print run in English in the late 1980's. The accuracy, clarity of style and common-sense approach to preparing German food will be of great help to the home preparer. Marked contrast to the more sophisticated and less well organized tomes on German cooking by the current doyen of English language German cookery, Mimi Sheraton. This is a 5-STAR work.

If you are looking for a true authentic German Cookbook, this book is for you! It has great recipes, reminds me of my childhood!

This is a delightful read. The author puts a lot into the description and background of the recipes and regions.

Accurate description, quick response, prompt safe shipment, good value.

Unique.
