# Doing Honest Work In College: How To Prepare Citations, Avoid Plagiarism, And Achieve Real Academic Success, Second Edition (Chicago Guides To Academic Life)

## Synopsis

Since its publication in 2004, *Doing Honest Work in College* has become an integral part of academic integrity and first-year experience programs across the country. This helpful guide explains the principles of academic integrity in a clear, straightforward way and shows students how to apply them in all academic situations—from paper writing and independent research to study groups and lab work. Teachers can use this book to open a discussion with their students about these difficult issues. Students will find a trusted resource for citation help whether they are studying comparative literature or computer science. Every major reference style is represented. Most important of all, many universities that adopt this book report a reduction in cheating and plagiarism on campus. For this second edition, Charles Lipson has updated hundreds of examples and included many new media sources. There is now a full chapter on how to take good notes and use them properly in papers and assignments. The extensive list of citation styles incorporates guidelines from the American Anthropological Association. The result is the definitive resource on academic integrity that students can use every day.

"Georgetown's entering class will discover that we actually have given them what we expect will be a very useful book, *Doing Honest Work in College*. It will be one of the first things students see on their residence hall desks when they move in, and we hope they will realize how important the topic is." - James J. O'Donnell, Provost, Georgetown University "A useful book to keep on your reference shelf." - Bonita L. Wilcox, English Leadership Quarterly "In 2005 we ordered copies of *Doing Honest Work in College* for our entire incoming class. The experience for McGill has been so positive that we are repeating it again for next year.... I have found this past term that the number of plagiarism cases has decreased dramatically from the same period last year. In addition to giving students the information needed to avoid plagiarism, the distribution of the book has raised awareness of the importance of academic integrity." - Enrica Quaroni, Disciplinary Officer for the Faculty of Arts, McGill University"

Charles Lipson is professor and director of undergraduate studies in political science at the University of Chicago. His many books include *Cite Right*, *How to Write a BA Thesis*, and *Succeeding as an International Student in the United States and Canada*, all published by the University of Chicago Press.

This book has been quite helpful in the area of writing works cited and reference pages for research papers. There are so many different types of sources now a days and this book gives examples in the many types of reference formats for just about every type of source you could think of. It also goes over what is considered ethical and what is not so if you're into that or want to know if you're politically correct this is the book for you.

It's so hard to find all the MLA requirements in one place. This book is easy to use, and it has MLA, APA and more guidelines all in one place. Must have!
