Customer Reviews

This got me an amazing grade despite not really reading the cases. I knew them so that I could site to them but this book will get you 80% there. Proximate causation was so good. One classmate kept telling me these books would "mess you up" well, I got the better grade by a lot soooooo

Exactly what I needed to help me through 1L exams. If you're struggling with concepts or just want some opportunities to apply them, this is the book for you

This book is kind of saving my ass in torts.

Saved me 1L year. Absolutely recommend this.

Awesome book. Really like this series and this edition in particular.

Very useful book!

Item as described.

Do not buy this book! The pages are out of order as other customers have mentioned. Otherwise, the book is well written and straight to the point. The author makes understanding the concepts of Torts easy to understand but unfortunately the pages being out of order definitely makes it harder to read.
