I highly recommend this book for 8th graders. It is a way to start building the vocabulary. As a teacher told me... the way to improve you grades and test scores... read, read, read... and.... vocabulary, vocabulary, vocabulary. It's not too soon to start preping for the SAT. You need to start in 8th grade to build your base knowledge. Those SAT prep courses or workbooks will only improve your test results by 100pts or so.... in order to really score big you need to build your base knowledge and you need to start as early as 8th grade... so.... read, read, read.... vocabulary, vocabulary,

vocabulary. I found this book to be excellent. It is really geared for teachers to use in a classroom. The only thing is that it didn't come with the answer key.... so I called the publisher and they emailed me the answer key. Nice...

The book is great. But not a good value at all. I brought five books in this series - big mistake - When I called the publisher for the answer key, they said that they will have to charge me 34.99 for each (basically the price of Teachers edition). So I have the choice of paying \$175 for the key for the books costing \$35. I guess I will have to look for the answers elsewhere !!!

Several different exercises, not just your standard fill in the blank or matching challenges my daughter to fully understand and use each word in context. I like the consistency of the format which is challenging but familiar and builds confidence along with skill.

This book was required by my child's school. It served its purpose. I think it was a good purchase. I did receive it in the time that I was supposed to and the purchasing process was very easy.

Exactly what I needed. Exactly as described. Great value.

One of my students used this, this year. And, another will have it next year. So, I'm ready, and I won't have to look over his shoulder.
